

EQUIPMENT FINANCE MASTERCLASS

April 11 – 12, 2019
Sydney, Australia

Sudhir P. Amembal is pleased to announce that he will be conducting our flagship seminar, the Equipment Finance Masterclass, in Sydney on April 11 & 12. Mr. Amembal is acknowledged as the foremost educator in the world in the area of equipment leasing & finance. Since 1978, Amembal & Halladay have trained over 80,000 leasing professionals from over 80 countries worldwide.

The Equipment Finance Masterclass is a two-day seminar tailored to the Australian market only for certain income tax nuances. The rest of the material – over 95%, applies generically to all countries. The seminar enables attendees to:

- Grasp the tax and accounting intricacies and impact of the four products, both from the customer's and financier's point of view
- Understand which benefits are offered by which product
- Counter common customer objections
- Use consultative selling tools
- Understand two of the common financial concepts often used in the world of equipment finance – present value and the internal rate of return
- Minimize customer costs and simultaneously maximize financier benefits
- Strive for ideal attributes sought by customers
- Add value
- Price and structure appropriately
- Navigate the new lease accounting standard

Those in sales and business development will sell more effectively and profitably; those in varied other departments will gain a broad and deep understanding of the financial, tax, accounting and marketplace aspects of the four products.

The seminar will benefit staff at all levels. Mr. Amembal uses a building block approach – one that will cause newcomers to gain a quick and instant understanding; yet, those with a few or several years of experience will refine their knowledge and definitely learn something new. The end goal of the seminar is to win more transactions and enable profitable growth.

Those who attended his seminars over the past 40 years throughout the world have benefited substantially from their participation in this seminar.
